

- **The Clean Energy Partnership (CEP) works as an industry partnership across industries and sectors to further the market establishment of mobility powered by hydrogen and fuel cells.**
- **The CEP provides an ideal framework for efficient cooperation in the interests of a sustainable energy transition. Innovative and future-oriented.**
- **The CEP partners are valued as pioneers of H₂ mobility. Here, standards are being set across all modes of transport.**
- **The CEP is a knowledge brand, network of experts and competence platform. The CEP advises policymakers on the design of regulatory frameworks.**
